**And What Have You**

By BOB CRAIG

The day of decision is rapidly approaching for the people of Hamlin and this area. That day of course is Tuesday and the decision is do we want to keep our hospital and our doctors.

We firmly believe that for the vast majority of people this decision is an easy one but the big problem will be voter apathy. Will the people who support the hospital take the time to vote? You can rest assured that those who oppose it will vote.

While we can understand people in the southern part of the county opposing this district from the standpoint of paying taxes for a hospital out of their immediate area, we cannot understand anyone in this immediate area opposing it.

Sure, it will cost you a little money, very little in fact, but to vote it down could cost you even more. A hospital and two or three doctors constitutes a major industry for Hamlin. Without this industry the whole town would suffer.

The loss of the hospital could be the forerunner of the loss of other businesses because of the payroll and other monies spent here by this industry and by the loss of customers brought to town from over a large trade territory. Any loss of businesses here in Hamlin and the resulting loss of employment could and would mean a loss in taxable valuations for the city, school and county.

Any loss in valuations on these tax rolls could mean an increase in taxes for those of us who are left and this could cost more than the small hospital tax that the district will be needing.

Also there is always the possibility that if this district is not approved then some other district would move in on us and we would still be faced with a hospital district tax but without the benefit of a hospital.

We are also aware that a number of people here go out of town to see their doctor and use other hospitals, just as many people come here from a large area. If you are one of those who use a doctor in Stamford, Abilene or any of the other doctors in the area then you may feel that it is of no concern of yours whether or not Hamlin has a hospital.

But try to remember that in a case of an emergency that extra 20 to 48 miles could mean the difference between life and death. Since the average taxpayer in the district will probably be paying only from \$10 to \$15 a year in taxes this could be cheap insurance.

But the most important thing is for you to make up your own mind as to how you feel about the district and then vote. Unless you vote it doesn't really matter how you feel about the district. Don't let someone else make this decision for you—your vote could be the one that decides the issue one way or another. Your failure to vote could also be the one that could have made the difference too.

And if you need a ride to the polls Tuesday call 576-3688 or 576-3471.

Because of the energy crisis there seems to be a question in the minds of many as what should be done about outdoor Christmas lighting. While we really don't have anything to base this opinion on but our own feeling, we think that within reason it would be a shame for this to be a dark Christmas.

With all of the problems facing us right now we believe that we need all of the Christmas spirit that we can get.

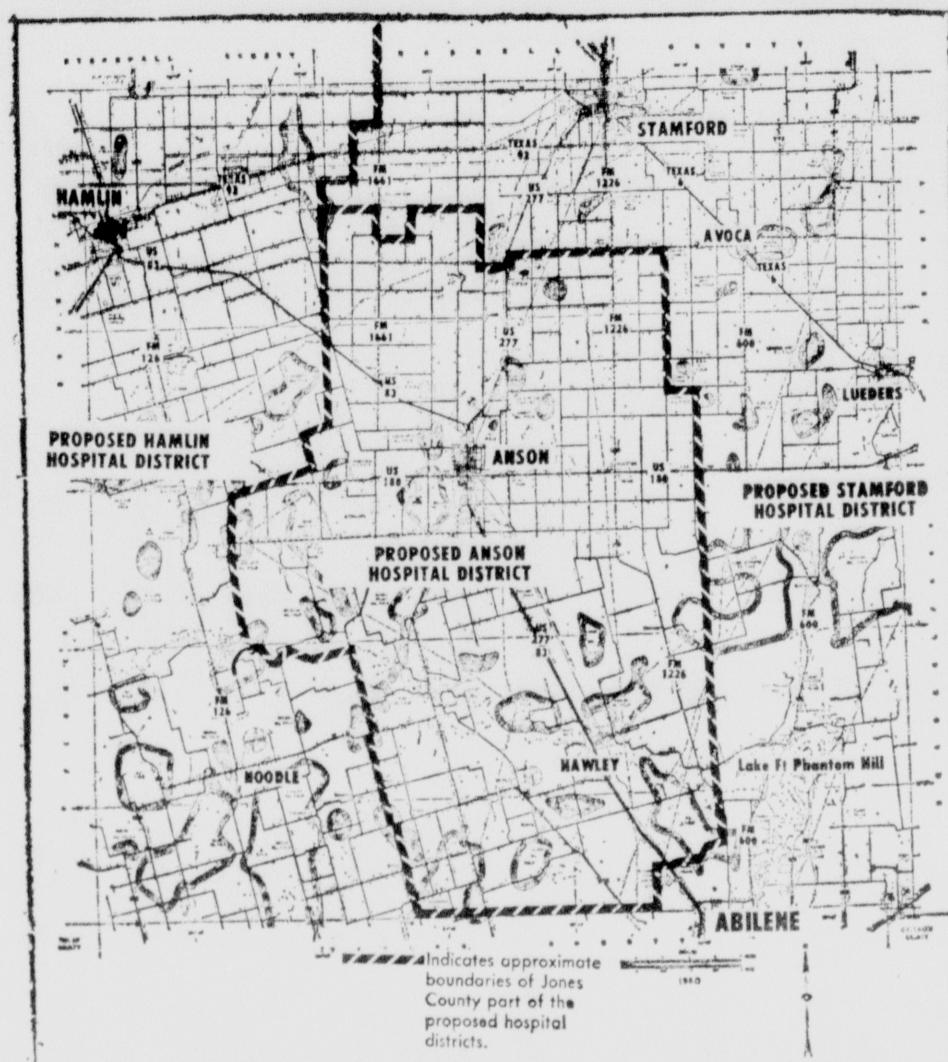

If your neighbor's house would go unheated because you turned on your Christmas lights then we would oppose it, but in this area that is not the case. We would suggest that all

## Pipers, Piperettes to Play In Merkel Turney Friday

Both the Hamlin varsity basketball teams will take to the court again this weekend in the Merkel Tournament with the Piperettes playing Wylie at 1:30 Friday and the Pipers taking on the Wylie boys at 2:50.

Other match ups in the Merkel Turney are Winters and Jim Ned, Rotan and Stamford, and Coleman and Merkel.

The first home game for the Pipers will be here with Coahoma Monday, Dec. 31. The freshmen will play at 4 p.m., the junior varsity at 5:30 and the varsity at 7 p.m.

The Piperettes took third place consolation in the Hardin-Simmons University Tournament in Abilene this past weekend. Cathy Hooper was awarded the sportsmanship

award.

The local girls lost to Bronte, 57-55, in the opening round; defeated Anson, 63-48, in the second round; and then lost to Haskell, 51-41, in the third round. They defeated Albany, 74-52, in the finals. Leigh Anne Vaughan was high against Bronte with 35 points and against Anson with 28. Miss Vaughan also scored 23 against Albany. Miss Hooper was high against Haskell with 17 and against Albany with 25. Alberta

Cork scored 23 against Anson and 20 against Albany.

Playing in the Colorado City Tournament, the Pipers defeated Post in finals for seventh place, 48-36. David Willis scored 13 points and Willie Hooper had 12 points.

The Pipers opened with a loss to Fort Stockton, 57-51, and then lost to Pecos, 54-42. Willis was high with 15 against Fort Stockton and Johnny Jones was high against Pecos with 17.

The local Junior Varsity lost all three games in the C-City tourney. They lost the opener to Seminole, 47-32, with Gerald Rodgers scoring 14 points. In the second round they fell to Stamford, 41-33, and lost to Post in the finals, 41-33. Tracy Rowland was high against Stamford with 12 and Oscar Marshall was high against Post with 8.

Voters who are in need of transportation to the polls are urged to call either 576-3688 or 576-3471.

If approved by the voters, the newly formed district would assume control and ownership of the present Hamlin Memorial Hospital. The hospital is currently owned by a non-profit private corporation, Hamlin Memorial Hospital Association, and would become a tax supported institution if the district is approved by the voters.

Voters are also being asked to grant approval for the issuance of up to \$500,000 in bonds for the district. These bonds would be sold as needed to payoff current obligations, and remodel the present hospital facilities to meet requirements imposed by the Texas Department of Health, HEW, and Medicare.

A spokesman for the board said earlier that only as many bonds will be issued as needed to bring the hospital up to the standards required by these government agencies.

Among the immediate needs to keep the doors open are a new heating and cooling system, a sprinkler system, and interior remodeling to meet the fire protection requirements of the National Life and Safety Code.

George B. Buescher, bond consultant for the district, has

projected a valuation of \$22,446,652 for the district. Based on those valuations, he said that the \$500,000 bond issue can be retired with a 20 cent tax

rate. Other expenses of the hospital district would be paid from the operating revenues of the hospital.

Based on 50 percent of value a \$10,000 home would be on the tax rolls at \$5,000 and the annual tax would be \$10.00. A \$5,000 home would be on the rolls at \$2,500 and the tax would be \$5.00 per year.

A \$12,000 home would be taxed \$12, a \$15,000 home would be taxed \$15.00 and a \$20,000 home would be taxed \$20.00.

At least for the immediate future, both Doctor M. L. Smith and Doctor Joe Don Hymer would continue to lease clinic space from the hospital.

JOHN MCKAY

... to present concert

### John McKay To Present Concert Here

The Hamlin Concert Bands and stage band will present their annual concert, "Christmas Festival," at 7:30 p.m. today (Thursday) in the Hamlin Public School Auditorium.

Bands to be featured under the direction of Tim Jones, will be the fifth grade, sixth grade, junior high, high school and stage band.

Admission is \$1 per person. Proceeds from the concert will go to help finance a trip to Hawaii which the high school band plans to make in the spring of 1974.

### P-TA to Meet Today At 3:40

The "Spiritual Side of Christmas" will be given by Mrs. Bill Shira at the 3:40 p.m. meeting of Hamlin Elementary Parent-Teachers Association today (Thursday).

Entertainment will be "Spanish Christmas" by the second grade.

Everyone is urged to attend.

**THIRD SUNDAY**  
The Third Sunday Singing will be held at 2 p.m. at Calvary Baptist Church.

Everyone interested in good singing is invited to attend.

**CLEANUP OPERATIONS UNDERWAY**—Workmen started this week cleaning out the debris at the office of Dr. J. E. Harrison following the fire that gutted the office building at 32 N. Central Friday evening. Dr. Harrison, local dentist, plans to open temporary offices in the northwest corner

of Hamlin Memorial Hospital Monday until the building can be repaired. The fire was discovered by the Harrisons' twin daughters, Marilyn and Carolyn, about 8:30 p.m. Dr. Harrison estimates the loss to be about \$30,000.

## FROM THE FILES . . .

FIFTY YEARS AGO  
(December 21, 1923)

Last year the Good-Fellow-Ship movement in Hamlin manifested itself in an effort to secure funds to bring cheer to the needy of Hamlin, stationing fruit jars in various stores as receptacles for all volunteer contributions. This worked nicely, but this year a different plan has spontaneously developed and already about \$200 is in the hands of a suitable committee. It is needless to say who the big hearted gentlemen are that started this, but they have succeeded well and Mrs. E. M. Wilson has been appointed as the custodian of the funds and she will summon all committees and aid as is necessary to distribute Christmas cheer to all unfortunate homes in Hamlin and surrounding country.

It is not only against the City Ordinances, but is strictly against the state law for any person to set off fire arms or fire works of any description whatever, within the fire limits of the City of Hamlin. It is begged of you to caution your children while celebrating with fire works, not to shoot them in the fire limits and to be careful with them in the residence section as it may be the means of preventing a serious fire.

Doubtless by this time most people have had the information that their automobile tax for 1924 is to be paid on or before Dec. 31, or if not by that date there will be an extra ten per cent added.

TWENTY YEARS AGO  
(December 18, 1953)

Winners in the Christmas window decoration contest sponsored by the Hamlin Chamber of Commerce were announced Wednesday. The contest, part of the CC Christmas celebration, was handled by members of the Fifty-Two Study Club. First prize was awarded to the Beta Sigma Phi Sorority, second prize went to the Hamlin Garden Club and third went to the Fifty-Two Study Club. Prizes for fourth through tenth places, which received ribbons were awarded to: Reynolds Drug, Business and Professional Women's Club, Hamlin Flower Shop, Waggoner Drug, West Texas Utilities, Parent-Teacher Association and McDonald's Department Store.

Interest in oil development in the Hamlin area for the week fanned out in several directions as a deep wildcat eight miles south of town looked good as it neared the Swastika strata and three wildcats, one in Stonewall County, a deep test near Tuxedo and another six miles south of Hamlin, were in the limelight.

By a vote of approximately 10 to one the cotton farmers of the Hamlin area who voted at the Hamlin box on acreage allotments for next year's crop approved the plan. Totals for the seven voting boxes in Jones County were 404 for and 68 against the referendum, which was a little more than six to one.

TEN YEARS AGO  
(December 12, 1963)

Showers accompanied a cold front which moved through Hamlin late Tuesday afternoon and turned to sleet later in the evening. Total moisture was .45. Freezing temperatures prevailed throughout the night and until late Wednesday morning.

Monday, at 7:30 in the high school auditorium, the Hamlin bands will present the Fifth Annual Christmas

Begin Holiday Safety  
With Christmas Tree

Let holiday fire safety start under the Christmas tree, says Texas Safety Association.

Never place trees near fireplaces, radiators or other sources of heat. Another precaution for resinous evergreens is to mount them in a water-containing stand and keep it filled.

Before the decorations go on, TSA suggests all lights should be checked for worn insulation, loose sockets or broken wires. All tree ornaments should be non-flammable.

Festival. The sixth grade, junior high school and high schools bands will play. A capacity crowd is expected. The 25 students who made the All-District Band at Anson last week will be recognized.

The Parent-Teacher Association will present the children of the primary school under the direction of Mrs. Willard Maberry in the Annual Christmas Pageant Sunday afternoon, Dec. 15, in the Junior High School Auditorium, at 3 p.m.

The Piperettes will meet Wylie today in the first round of the Dyess High School Girl's Basketball Tournament. The 16 team tourney will feature the top teams of the area with the championship being decided Saturday night. Teams entered are: Hawley, Winters, Coleman, Paint Creek, Wylie, Hamlin, Brady, Trent, Avoca, Jim Ned, Baird, Merkel, Haskell, Clyde, Anson and Aspermont.

The Jones and Fisher County singing meets Sunday, Dec. 15, in the Foursquare Church. New books will be used and a large crowd is expected to attend.

## And What Have You

—Continued from page one

Christmas lights be turned off by 10 p.m.

As to a lot of the solutions being advanced from the President on down to our own Governor, we are afraid that most of them are window dressing or politically motivated.

Many of these solutions being advanced are about as practical as some we received as a youngster when told to clean our plates because the people in China were starving.

Never could understand how this was going to help those people in China.

This is the way of many of the energy saving plans being advanced by our government.

One example of this is letting school out one hour earlier during January, February and March. As we understand it the buildings must be kept at 68 degrees while in session and 65 degrees when not in session. We are not engineers, but would think that when you take all of the people out of a building it would take as much energy to heat it to 65 as it would to keep it at 68 when full.

Another example is day basketball games. It is being proposed that athletic events should be scheduled during the afternoon during these same three months. Not sure what this is supposed to save since every gym we have ever been in requires lights in both the daytime and at night. Most gyms when full of people require that the windows be opened rather than the heat being turned on.

Of course the real problem of day games is finding officials that can work in the afternoons.

We have no intention of making light of this energy shortage and the big problem facing this nation but we do feel that we need more and better thoughts from our elected leaders. It seems obvious to us that stepping out in front of a runaway freight train is not going to stop it. And some of these patch work solutions are not going to help solve our energy shortage, either.

Finally, warns TSA, never leave tree lights on overnight or while gone on a holiday trip.

Safety Opportunity  
Follows Gift Opening

One of the best opportunities for holiday safety comes just after the gifts have been opened, according to Texas Safety Association.

Paper wrappings left near a heater or water heater are a serious fire hazard. Burning the wrappings in a fireplace is the worst possible way to dispose of them, according to the safety group.

# Labeled for PROTECTION

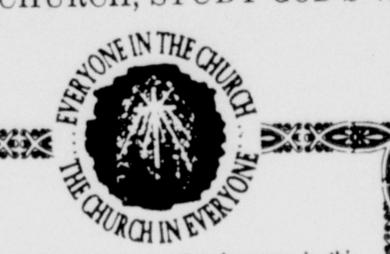

Some medicines may be taken internally; others are for external use only; therefore labels caution us as to their proper use. These precautions are for our own protection and good.

All things in life are not so clearly marked as to their proper use. The Bible is our source and guide, our label.

*Thy word is a lamp unto my feet, and a light unto my path.*

Psalm 119, 105

ATTEND CHURCH, STUDY GOD'S WORD

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

IN SHERIFF'S OFFICE—

## County Enters Into Agreement With Cities for Night Dispatch Service

The Jones County Commissioner's Court voted Monday to enter into a cooperative agreement with the cities of Hamlin, Anson and Stamford to furnish a night dispatcher for the law enforcement departments within the county.

The dispatcher will work under Jones County Sheriff Woodrow Simmons with the county furnishing the facilities and paying one-fourth of the labor costs. Each of the three cities will pay one-fourth of the labor costs.

This agreement was the outgrowth of a meeting of the city officials with the court Monday morning in Anson. City officials meet with the Commissioner's Court on this and other matters of cooperation between the cities and the county government.

Joe Ford, Hamlin mayor, presented a list of items on which the cities felt a need for help from the county. Along with the night dispatcher, the cities sought some help from the county on garbage disposal, ambulance service, an additional deputy and rural fire fighting.

Acting as spokesman for the commissioners, County Judge Leon Thurman told the group that the county would look into the matter of help for the cities on fighting rural fires and with garbage disposal. But Judge Thurman said that he felt that the hospital districts being voted on next week would be a better source for help on the ambulance problem.

A spokesman for Stamford told the commissioners that 63 percent of their city owned ambulance calls were outside their city limits and that 62 percent of their fire calls were also outside their city limits.

## NEWS FROM ... Sylvester

by Mrs. R. M. Babb

garbage off of the county's roads.

Not much encouragement was given the cities on the county's expanding its sheriff's department to provide more deputies. Judge Thurman told the delegates that the sheriff's department was already one of the most expensive departments within the county.

The new county dispatcher is to begin work after the first of the year but it would be in July before the cities would receive much of the benefit. It will be in July before the three towns are connected by toll-free telephone service. When this service goes into effect, it is expected that all police and fire calls at night would be handled through the sheriff's office rather than by the local dispatcher.

The combination of the new toll-free telephone service and a new radio system was cited as reasons for this new service. For a number of years Hamlin has had the only 24-hour dispatch service in the county.

Mayor Ford told the commissioners that this was mainly for the fire alarm service and that this could be handled in Anson with the new phone service that will become available in July.

### Services Held Sunday for Mrs. Hall, 83

Mrs. Mable Hall, 83, 323 N. W. Avenue J, died at 1:30 p.m. Friday at Hamlin Memorial Hospital after a six months illness. She had lived in Hamlin for the past 12 years.

Funeral service was held at 2 p.m. Sunday in Melton Chapel of Memories in Breckenridge. The Rev. Don Osada, pastor of the First United Methodist Church of Breckenridge, officiated. Interment was in Harpersville Cemetery, south of Breckenridge under the direction of Melton Funeral Home. Local arrangements were by McCoy Funeral Home.

Born Mable Alice Rogers, May 23, 1890, in St. Joe, Ark., she was the daughter of the late Dr. and Mrs. W. F. Rogers. She married Jim Hall Mar. 26, 1943, in Breckenridge. They lived in Harpersville until 1961 and owned and operated the Humble Service Station on Highway 183. Her husband preceded her in death in 1961.

She was a member of the Methodist Church.

Survivors include three daughters, Mrs. Joe Fleckenstein of Hamlin, Mrs. Braz Rogers of Prairie Grove, Ark., Mrs. J. E. Freeman of Denver City; one son, Cecil Davidson of Hansford, Calif.; three sisters, Mrs. Inez Walker of St. Joe, Ark., Mrs. V. H. Williams of Gardena, Calif., Mrs. Sam Bowman of Albuquerque, N. M., 11 grandchildren; 26 great-grandchildren.

One brother, Bill Rogers, preceded her in death.

Pallbearers were Cecil Brown, Audrey Hodnett, A. L. Sanders, Charlie Browning, Marvin Thorne and Eddie Offield.

Funeral was held at 2 p.m. Wednesday in the chapel of First Baptist Church with the Rev. Howard Jones, pastor, and the Rev. Marshall Stewart, pastor of the Church of the Nazarene, officiating.

Born July 14, 1907, in Berry, Ala., he was the son of the late Mr. and Mrs. W. R. Pendley. He married Maurene Dacus in Covington Nov. 22, 1933. They moved here in 1938.

Survivors include his wife; one daughter, Charlene Rumsch of Dallas; three brothers, Coleman Pendley of Texas City, Troy Pendley of Hillsboro and Elzie Pendley of Ft. Worth; and one grandchild.

Burial was in Hamlin Memorial Cemetery under the direction of McCoy Funeral Home.

Pallbearers were A. E. Killion, Burnia Reid, Burt Oliver, John C. Bryant, Wallace Ely and Kelley Scott.

Well, it finally got here a killing frost. If this morning didn't do it, then I give up. Most of the cotton is out so now we are ready for a good rain for the grain. Never satisfied are we?

Our sympathy to the family of Mrs. Tidmore, the former Mrs. Loftin who lived here many years ago and was brought here for burial last Saturday.

We also extend our sympathy to the family of Mrs. Tom Parsons who passed away last Saturday and was buried here

## Neinda Philosopher Opposes Amendment

## Outlawing Absenteeism In Congress

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One gets off on a variety of subjects this week.

Dear editor:  
According to an article I read last night during network cable trouble there is a move on in Congress to get a Constitutional amendment requiring the dismissal of any Congressman who's absent from his job 40 percent of the time.

As one Congressman pointed

out, lots of fellow members just don't show up very often, and he said that last year the House was unable to function on 330 occasions because no quorum was present.

I have thought this over and I don't believe such a Constitutional amendment ought to be passed.

While I don't know what legislation was supposed to be voted on during those 330 times a quorum was absent, it's possible that if all members were on hand we would now

have 330 new laws, and as everybody knows we've got more laws now than we can obey, as nearly any executive of a big corporation can tell you.

To change the subject, I've been speculating lately on the oil shortage and got to wondering what shape we'd be in now if the more rabid environmentalists had been organized millions of years ago when all our fossil fuel was being made. I mean, if they'd rushed in and saved the dinosaurs and other species from extinction, we wouldn't have had any oil to start with.

Another thing that's been puzzling me is a T.V. ad for a savings and loan association saying if you save \$50 a month for 15 years, letting the interest accumulate and being added to the principal, at the end of the 15 years you could draw \$50 a month in interest every month from then on, for ever.

But say instead of \$50 a month you and everybody else put in say \$200 a month. At the end of 15 years everybody would have enough interest coming in to live on and nobody would ever have to work again. I don't understand money.

Yours faithfully,  
J.A.

## Right To Travel

"The right to travel is a part of the 'liberty' of which the citizen cannot be deprived without due process of law. Movement across frontiers (is) a part of our heritage. Freedom of movement is basic in our scheme of values."

The words are those of the United States Supreme Court. And, during most of our nation's life, there were no governmental restrictions on going abroad. All you had to do was buy a ticket, board the ship, and sail away.

Nowadays, of course, you do need a passport. But even today, the government's exit requirements are subject to careful scrutiny by the courts.

**WHO**

# SAYS HAMLIN DOESN'T NEED A HOSPITAL DISTRICT CONSIDER THESE FACTS:

How much does the hospital payroll add to Hamlin's economy? How many businesses would either be hurt or be forced to close if the hospital proposal fails to pass? How many families would move from Hamlin?

With the current energy shortage and the strong possibility of gasoline rationing in the near future would you have a problem of going to Stamford or to Abilene just to see a doctor?

What about the senior citizens of our community? Without a hospital in Hamlin, hundreds of elderly individuals would be forced to drive to Stamford or Abilene for medical attention.

We have everything to gain and nothing to lose by voting YES for the Hamlin Hospital District. Stop and think . . . weigh the issues. Do we really have a choice?

What if you or a loved one has a severe heart attack or is involved in a serious accident? In such an instance, every minute counts. Would there be time to drive to Stamford or Abilene? Hamlin Memorial Hospital has saved numerous lives due to its proximity.

Have you ever tried to reach a Stamford or an Abilene doctor at night or on Sunday? Hard isn't it. . . especially when your baby is ill! This could be a permanent situation.

What if a member of your family is hospitalized away from home and you have to be off your job to be with that person? What if our community is stricken with a major industrial or weather disaster? Where would we be without our hospital?

If the Hamlin Hospital District is not approved, there is a strong likelihood of this area being included in someone else's Hospital District in the future. This would mean a hospital district tax but no hospital!

Now you know how comfortable the Scrambler knit feels.

The Scrambler knit shirt is so  
comfortable and flexible you'll  
hardly know you have it on. This  
Arrow knit moves as you move  
without any pulling or tugging on  
you. And because it is a knit it  
holds its shape.
